ANNUAL CONFERENCE & TRADE SHOW
(June 29-July 1, Orlando)

Announcing Top Safety Performers for 2010

In the utility industry, safety is a top priority all the time. No doubt you personally support your company's initiatives to provide a safe work environment. The Safety Awards Program is our way of recognizing and rewarding your and your company's efforts. Southeastern Electric Exchange has been keeping safety statistics for over 30 years. Members submit their safety stats to S.E.E. on a quarterly basis, using a reporting form based on the OSHA 300A form. Executive Director, Jim Collins, collects, records, calculates and reports the stats each quarter and does a final Annual report. Based on the results of this annual report, S.E.E. recognizes the companies that distinguish themselves by achieving safety performance goals in both Fleet Safety and Personnel Safety.

And the top safety performers of 2010 are . . .

Top Fleet Safety Performance
Oklahoma Gas & Electric Co.

Achieving the Fleet Safety Performance Goal
American Electric Power
South Carolina Electric & Gas Company

Achieving the 2010 OSHA Incidence Rate Goal
Dominion

Top Performance - Total Company Safety
Mississippi Power Company

Top Performance - Fossil & Hydro Generation
Mississippi Power Company

Top Performance - Nuclear Generation
Southern Nuclear Operating Company
South Carolina Electric & Gas Company

Top Performance - Transmission & Distribution
South Carolina Electric & Gas Company

Award given to companies achieving the Vehicle Accident Frequency Rate, a measure of the number of accidents per mile driven.

Award given to companies achieving the annual Total Company OSHA Case Rate Goal set by the Accident Prevention Section. Goal is a measure of the total number of injuries and illnesses per 100 full-time workers, calculated by total hours worked.

Recognition for "Top Performance" goes to the company achieving best (lowest) OSHA Recordable Case Rate in each group.

We congratulate these companies for their excellent commitment to safety over the long term, and look forward to honoring company representatives at both the Accident Prevention Section meeting, May 10-12 in Atlanta, and the 2011 Annual Conference and Trade Show, June 29-July 1, in Orlando.
